Subject: Request for Applications (RFA) Number 685-03-A-001
Alternatives for at-Risk Youth in the Casamance

The United States Agency for International Development (USAID) is seeking applications for an Assistance Agreement from qualified US or non-US Non-Governmental Organizations (NGOs) for funding a program in Alternatives for at-Risk Youth in the Casamance. The authority for the RFA is found in the Foreign Assistance Act of 1961, as amended.

Subject to availability of funds, USAID anticipates making up to three awards for a total of approximately \$500,000 over a period of two years. The RFA outlines three types of activity that can be supported with USAID funding. NGOs that wish to bid may target one activity, in line with their special capacities, or may include all three activities in a single application. However, the bidders should clearly desegregate the technical, and cost applications by activity. USAID will consider applications submitted for each activity separately. Award may be made for only one activity, even though the organization may have proposed initiatives in all. USAID reserves the right to fund any or none of the applications submitted.

USAID anticipates to award grant(s) and/or Cooperative Agreement(s) out of this RFA. If the RFA results into any Cooperative Agreement(s), USAID will have limited substantial involvement in the implementation of the program as long as the implementing organizations comply with the assistance agreement(s), which will be based on their applications.

The Recipient will be responsible for ensuring achievement of the program objective in Alternatives for at-Risk Youth in the Casamance. Please refer to the Program Description for a complete statement of goals and expected results.

Pursuant to 22 CFR 226.81, it is USAID policy not to award profit under assistance instruments. However, all reasonable, allocable, and allowable expenses, both direct and indirect, which are related to the grant program and are in accordance with applicable cost standards (22 CFR 226, OMB Circular A-122 for non-profit organization, OMB Circular A-21 for universities, and the Federal Acquisition Regulation (FAR) Part 31 for-profit organizations), may be paid under the grant.

SECTION A - GRANT APPLICATION FORMAT

PREPARATION GUIDELINES

All applications received by the deadline will be reviewed for responsiveness to the specifications outlined in these guidelines and the application format. Section B addresses the technical evaluation procedures for the applications. Applications which are submitted late or are incomplete run the risk of not being considered in the review process.

Applications shall be submitted in two separate parts: (a) technical and (b) cost or business application. Technical portions of applications should be submitted in an original and 3 copies and cost portions of applications in an original and 1 copy. Both technical and cost portions of the applications shall have a cover page which includes the point of contact for the organization, including name, title, address, phone and fax numbers and e-mail address.

The application should be prepared according to the structural format set forth below. Applicants are encouraged not to exceed 30 pages of the technical submission, and the applications shall be written in English and formatted for standard 8 1/2 " x 11", single spaced, 10 characters per inch with each page numbered consecutively. Items such as graphs, charts, cover pages, dividers, table of contents, and attachments (i.e. key personnel resumes, table summarizing qualifications of proposed personnel) are not included in the 30-page limit. However, the volume of these documents must be kept to a reasonable minimum. Applications must be submitted no later than the date and time indicated on the cover page of this RFA, to the location indicated on page 2 of the cover letter accompanying this RFA.

Technical applications should be specific, complete and presented concisely. The applications should demonstrate the applicant's capabilities and expertise with respect to achieving the goals of this program. The applications should take into account the technical evaluation criteria found in Section B.

Applicants should retain for their records one copy of the application and all enclosures which accompany their application. Erasures or other changes must be initialed by the person signing the application. To facilitate the competitive review of the applications, USAID will consider only applications conforming to the format prescribed below.

COST APPLICATION FORMAT

The Cost or Business Application is to be submitted under separate cover from the technical application. Certain documents are required to be submitted by an applicant in order for an Grant Officer to make a determination of responsibility. However, it is USAID policy not to burden applicants with undue reporting requirements if that information is readily available through other sources.

The following sections describe the documentation that applicants for Assistance award must submit to USAID prior to award. While there is no page limit for this portion, applicants are encouraged to be as concise as possible, but still provide the necessary detail to address the following:

A. A copy of the program description that was detailed in the applicants program description, on a 3-1/2" diskette, formatted in Word97.

B. Include a budget with an accompanying budget narrative which provides in detail the total costs for implementation of the program your organization is proposing. The budget must be submitted using Standard Form 424 and 424A which can be downloaded from the USAID web site, http://www.usaid.gov/procurement_bus_opp/procurement/forms/sf424/;

- the breakdown of all costs associated with the program according to costs of, if applicable, headquarters, regional and/or country offices;

- the breakdown of all costs according to each partner organization involved in the program;

- the costs associated with external, expatriate technical assistance and those associated with local in-country technical assistance;
- the breakdown of the financial and in-kind contributions of all organizations involved in implementing this Cooperative Agreement;
- potential contributions of non-USAID or private commercial donors to this Cooperative Agreement;
- procurement plan for commodities (note that contraceptives and other health commodities will not be provided under this Cooperative Agreement).

C. A current Negotiated Indirect Cost Rate Agreement;

D. Required certifications and representations (as attached):

E. Cost share has been recommended at 25% of the total estimated amount. Applicants must clearly state the percentage of cost share and total dollar amount that they are proposing and explain the proposed means through which those funds would be secured. USAID expects applicants to demonstrate a commitment to program success by proposing an appropriate and meaningful level of cost sharing. Evaluation of cost share will include the level of financial participation and the added value to the program represented by this commitment. The amount of cost share proposed must be reflected under Non-Federal Portion on the SF-424A.

F. Applicants who do not currently have a Negotiated Indirect Cost Rate Agreement (NICRA) from their cognizant agency shall also submit the following information:

1. copies of the applicant's financial reports for the previous 3-year period, which have been audited by a certified public accountant or other auditor satisfactory to USAID;
2. projected annual budget, annual cash flow projection and organizational chart;
3. A copy of the organization's accounting manual.

G. Applicants should submit any additional evidence of responsibility deemed necessary for the Grant Officer to make a determination of responsibility. The information submitted should substantiate that the Applicant:

1. Has adequate financial resources or the ability to obtain such resources as required during the performance of the award.
2. Has the ability to comply with the award conditions, taking into account all existing and currently prospective commitments of the applicant, nongovernmental and governmental.
3. Has a satisfactory record of performance. Past relevant unsatisfactory performance is ordinarily sufficient to justify a finding of non-responsibility, unless there is clear evidence of subsequent satisfactory performance.
4. Has a satisfactory record of integrity and business ethics; and
5. Is otherwise qualified and eligible to receive a grant under applicable laws and regulations (e.g., EEO).

H. Applicants that have never received a grant, cooperative agreement or contract from the U.S. Government are required to submit a copy of their accounting manual. If a copy has already been submitted to the U.S. Government, the applicant should advise which Federal Office has a copy.

In addition to the aforementioned guidelines, the applicant is requested to take note of the following:

I. Unnecessarily Elaborate Applications - Unnecessarily elaborate brochures or other presentations beyond those sufficient to present a complete and effective application in response to this RFA are not desired and may be construed as an indication of the applicant's lack of cost consciousness. Elaborate art work, expensive paper and bindings, and expensive visual and other presentation aids are neither necessary nor wanted.

J. Acknowledgement of Amendments to the RFA - Applicants shall acknowledge receipt of any amendment to this RFA by signing and returning the amendment. The Government must receive the acknowledgement by the time specified for receipt of applications.

K. Receipt of Applications - Applications must be received at the place designated and by the date and time specified in the cover letter of this RFA.

L. Submission of Applications:

1. Applications and modifications thereof shall be submitted in sealed envelopes or packages (1) addressed to the office specified in the Cover Letter of this RFA, and (2) showing the time specified for receipt, the RFA number, and the name and address of the applicant.

2. Faxed applications will not be considered; however, applications may be modified by written or faxed notice, if that notice is received by the time specified for receipt of applications.

M. Preparation of Applications:

1. Applicants are expected to review, understand, and comply with all aspects of this RFA. Failure to do so will be at the applicant's risk.

2. Each applicant shall furnish the information required by this RFA. The applicant shall sign the application and print or type its name on the Cover Page of the technical and cost applications. Erasures or other changes must be initialed by the person signing the application. Applications signed by an agent shall be accompanied by evidence of that agent's authority, unless that evidence has been previously furnished to the issuing office.

3. Applicants who include data that they do not want disclosed to the public for any purpose or used by the U.S. Government except for evaluation purposes, should:

(a) Mark the title page with the following legend:

"This application includes data that shall not be disclosed outside the U.S. Government and shall not be duplicated, used, or disclosed - in whole or in part - for any purpose other than to evaluate this application. If, however, a grant is awarded to this applicant as a result of - or in connection with - the submission of this data, the U.S. Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting grant. This restriction does not limit the U.S. Government's right to use information contained in this data if it is obtained from another source without restriction. The data subject to this restriction are contained in sheets ; and

(b) Mark each sheet of data it wishes to restrict with the following legend:

"Use or disclosure of data contained on this sheet is subject to the restriction on the title page of this application."

N. Explanation to Prospective Applicants - Any prospective applicant desiring an explanation or interpretation of this RFA must request it in writing within three weeks of receipt of the application to allow a reply to reach all prospective applicants before the submission of their applications. Oral explanations or instructions given before award of a Grant will not be binding. Any information given to a prospective applicant concerning this RFA will be furnished promptly to all other prospective applicants as an amendment of this RFA, if that information is necessary in submitting applications or if the lack of it would be prejudicial to any other prospective applicants.

O. Grant Award:

1. The Government may award one or more Grants resulting from this RFA to the responsible applicant(s) whose application(s) conforming to this RFA offers the greatest value (see also Section B of this RFA). The Government may (a) reject any or all applications, (b) accept other than the lowest cost application, (c) accept more than one application (see Section B, Selection Criteria), (d) accept alternate applications, and (e) waive informalities and minor irregularities in applications received.

2. The Government may award one or more Grant(s) on the basis of initial applications received, without discussions. Therefore, each initial application should contain the applicant's best terms from a cost and technical standpoint.

3. Neither financial data submitted with an application nor representations concerning facilities or financing, will form a part of the resulting Grant(s).

P. Authority to Obligate the Government - The Grant Officer is the only individual who may legally commit the Government to the expenditure of public funds. No costs chargeable to the proposed Grant may be incurred before receipt of either a fully executed Grant or a specific, written authorization from the Grant Officer.

SECTION B - SELECTION CRITERIA

The evaluation criteria below are based on the expected desired outcomes stated in this RFA and will be used to select the winning applications. Applicants should note that these criteria serve to: (a) identify the significant matters which applicants should address in their applications and (b) set the standard against which all applications will be evaluated. To facilitate the review of applications, applicants should organize the narrative sections of their applications in the same order as the selection criteria.

The technical and cost applications will be evaluated in accordance with the Evaluation Criteria set forth below. To the extent that they are necessary (if award is made based on initial applications), negotiations will then be conducted with each applicant whose application has a reasonable chance of being selected for award. Awards will be made to responsible applicants whose applications offer the greatest value, cost and other factors considered.

Applications should indicate clearly which activity(ies) the proposed program addresses.

Awards will be made based on the ranking of applications according to the evaluation criteria identified below:

Technical application	80 points
Cost application	<u>20 points</u>
Total	100 points

1. Technical Approach and Strategic Fit

80 points

Applications must clearly demonstrate pertinent activities in one or more of the areas of program emphasis, outlined in sections.

1.1. Creativity and Strategic Fit (30 points) - Applicants should demonstrate an in-depth understanding of the problems youth in the Casamance face and evidence of consultation with youth in program design. Applications should be specific about the issues they will address and support their approach with analysis where possible. The appropriateness of the proposed activities to the targeted problem and overall program coherence will be assessed. Applicants should provide details concerning organizations, if any, they plan to work with.

The degree to which the proposal responds to one or more of the main program areas (see section C) will be assessed. Proposals which present offers for two or more components will be favored if their ideas are valid and economies of scale are outlined. Explanation of how components will be complementary will be evaluated.

1.2. Expected Results (25 points) - Extent to which the proposed activities are likely to have measurable positive impact on the situation of youth in the Casamance. This will be assessed by the planned results as presented in proposals, such as proposed number of youth to be placed in jobs, proposed total number of youth assisted, total number of facilities established, or other results the applicant proposes. The potential for continuity of proposed activities once USAID support is complete will also be evaluated.

1.3. Institutional Capacity (25 points) - This will be assessed by experience implementing similar activities, especially in the Casamance, proposed start-up time after signature of cooperative agreement, demonstrated capacity to manage (technically, administratively, and financially) a project of similar type and complexity and to deliver the required results within the specified time period, and prior successful experience in working with USAID and/or other international donors.

2. Cost

20 points

The costs will be evaluated for general reasonableness, allowability, and allocability as follows:

2.1. Direct Interventions vs Overhead Costs (5 points) - USAID/Senegal seeks proposals where the maximum amount possible goes to direct interventions not to overheads.

2.2. Cost Effectiveness and efficiency (10 points) - The cost effectiveness of the organization's approach and its ability to effect a wide base of beneficiaries. Applicants must present a detailed budget including all sources of funds allocated and a narrative description ("Budget Notes") of the applicant's assumptions made for each budget line item.

2.3. Cost-sharing mechanisms cost sharing is strongly encouraged. The benchmark for cost sharing is 25% of the total cost of the activity. (5 points).

This section should include a detailed budget (template below), narrative budget notes and evidence of some recipient contribution (or convincing explanation why recipient contribution is not appropriate). For organizations submitting for more than one component, budgets should be provided for each component, and a final separate sheet should be filled in detailing potential economies of scale if two or more components are funded.

SECTION C - PROGRAM DESCRIPTION

I. Introduction

USAID Senegal is continuing its support for a stable and prosperous Casamance Region of Senegal through this Request for Applications (RFA), which announces a two-year program focusing on providing alternatives for At Risk Youth. Through this RFA, USAID Senegal is soliciting applications for innovative approaches to helping youth in the Casamance build better lives for themselves and their communities. The objective is to help youth fully integrate into society by helping them build leadership skills, find employment, and confront the risks of HIV/STI infections.

II. Background and Justification

The area of Senegal called the Casamance is located between The Gambia and Guinea-Bissau. The Casamance is made up of two administrative regions: Ziguinchor, and Kolda. Ziguinchor has a population of about 398,337, and Kolda of about 591,833. For nearly 20 years, this agriculturally rich zone has been the site of an armed separatist rebellion.

The conflict has had negative effects on virtually every aspect of life in the Casamance: by some estimates, over 60% of the population in the Casamance has been displaced. Villages have been mined and destroyed. Tourism, once one of the region's most important sectors for employment, has come to a virtual standstill. As a result of conflict, lack of investment and government indifference, the Casamance today is a classic example of under development and its people, particularly the youth, have few options and little hope.

Uncontrolled exploitation of forests and aquatic resources has caused environmental damage. Job opportunities are limited. Schools are overcrowded, and few educational opportunities or training activities exist. Displacement has contributed to the weakening of traditional family values - for example, out of wedlock births are reported to have increased substantially.

Youth (between the ages of 15-30) make up about 25% of the population, numbering 338,000. With an estimated 2.67% population growth rate, an additional 9,000 new jobs must be created annually. Since the youth constitute the human capital upon which the region's future will be built, addressing their problems is central to resolving the conflict.

In order to continue education both at the High School level and beyond, students are obliged to go to Dakar. Often their families do not have the financial resources to support them, severely limiting the number of youth who are able to pursue their studies and develop their skills. Youth who remain in the Casamance, without jobs or the possibility of continuing their studies, are vulnerable not only to drug and alcohol abuse, but also to the lure of making money by informal prostitution and, in some cases, banditry. A long-term resolution of the conflict in the Casamance must address the needs of youth in the region. USAID has identified three problem areas which are critical to improving the situation of youth in the Casamance:

Limited Opportunities for Youth to Play Constructive Roles in their Communities

In the past, Ziguinchor high schools have noticed a high percentage of male dropouts shortly before high school graduation. There is anecdotal evidence that these young men joined the separatist movement or became armed bandits - preferring to be part of a group with a purpose to facing the shame of unemployment in the city.

Young people need organized activities and recreation opportunities to keep them occupied and develop valuable social and leadership skills. The opportunities in the Casamance are limited: there are no public sporting centers, in spite of the Senegalese passion for sport. Activities organized for youth usually revolve around dancing and drinking - which encourage high-risk behavior rather than provide alternatives to it.

Youth need to be encouraged to reach outside of their peer group to fully participate in society as a whole. Good governance is dependent upon participation of all age groups, yet many young people do not see any role for themselves in their communities. Activities which provide role models for youth and give them the tools with which they can participate in their communities need to be encouraged.

Identifying Employment Opportunities and Building Skills

Alternatives for income generation and social activities are limited for young people in the Casamance. There are no official figures for unemployed youth in the region. However, simple observation in Ziguinchor suggests that the majority of youth have no jobs, and income generation activities for youth are often cited by the local population as priority.

Most youth in the Casamance were traditionally employed in agriculture, which reinforced the utility and value of youth in society. In many areas, normal agricultural activity is no longer possible - because of landmine infestation or salt infiltration in fields that have been neglected because of the conflict. Even in areas which are not mined, fear of attacks on the roads have led to great difficulty in getting produce to markets, reducing commercial agriculture.

Before the conflict, many youth were employed in the tourism sector. The conflict has had disastrous effects on the tourism sector. Hotels in Ziguinchor and the interior of the Casamance are under utilized. As a result, many employees have been let go because of low demand.

Curtailling STDs/AIDS/Drug Abuse

With limited education and economic opportunities, young women see few alternatives to the traditional role of getting married and having children. Many resort to informal prostitution - relying on men to support them in return for sex. It is common for girls to have several simultaneous partners. The head of the medical region has estimated the incidence of HIV in Ziguinchor among registered sex workers at 26%. Ziguinchor is a crossroads city, with truckers, military and tourists. Thus, youth in the Casamance are particularly at risk with respect to HIV/AIDS. HIV prevalence in pregnant women in Ziguinchor has risen steadily and has been the highest in the country since 2000. The HIV prevalence data for in-patients in Ziguinchor also shows the highest national rate.

While information on STIs is limited, the prevalence for syphilis in registered sex workers is around 5%, and for pregnant women around 2%. STIs are prevalent, and those with them have a higher risk of contracting HIV/AIDS.

Drugs, mainly marijuana, are cultivated in areas of the Casamance, and readily available for both consumption and resale. Participation in drug trafficking - either cultivation or transporting drugs to Dakar or the Gambia for resale - is a lucrative trade in the region.

Families feign ignorance when their children bring money home or show up with new clothes. They feel powerless to question their children about how they obtained money, because poverty, reduced social cohesion and the long term effects of war have eroded family and social values.

By providing youth with alternative means of gaining income and playing socially productive roles, this program is intended to help youth build their self-esteem, repair their role in the family, and become more socially responsible, active members of their communities.

III. Purpose/Objective

This program directly responds to Key Intermediate Result 1 of the Casamance Special Objective: Improved Standards of Living for Affected Populations. The purpose of this program is to help youth in the Casamance build productive lives for themselves. USAID is interested in supporting initiatives in three areas to achieve this:

- Building Youth Leadership. Examples of activities which could contribute to this are helping youth to organize initiatives to address social issues, youth-led interactions with community leaders, a mentoring program, sports activities that develop leadership skills and/or create links with the community, theater and cultural groups, a "game room" or reading room. To encourage project sustainability, activities should focus on helping youth to identify ways in which they can mobilize resources at the local level, rather than simply receive grants to implement activities.

685-03-A-001

- Employment generation. Examples of activities could include job or internship placement services, day labor placement services to gain experience and work contacts, volunteer talks on career options, and vocational training to build skills.
- HIV/STI and drug abuse prevention. Activities could include awareness campaign for the signs and effects of drug use, counseling for drug users and prostitutes, programs for first offenders (prostitutes, drug runners) which take a "real world" look at the outcomes of negative lifestyle choices, peer led talks about sex, drugs and HIV risk in schools and community centers, and media presentations.

The three components of the program are complementary. Individual youth often face all three obstacles in their lives - and applicants should indicate their vision of how the three components will reinforce each other and share information.

To the extent possible all activities, including awareness raising, should be done by youth for youth. Youth should also be involved in program selection, design, monitoring and evaluation.

The duration of the program will be 24 months.

IV. Rules and Responsibilities

Monitoring and evaluation will be carried out by the grantee(s) with USAID oversight. Grantee(s) will be responsible for adhering to USAID reporting requirements (i.e. submit in a quarterly and annually basis a monitoring and evaluation report).

V. Zone of Intervention

The Casamance Special Objective targets the entire Casamance - including the administrative Regions of Ziguinchor and Kolda. Applicants should explain their choice of working zones and any constraints they might have working within that area.

VI. Subgrants

Subgrant making programs are allowable, but not required. Applicants should explain in detail management mechanisms for subgrants and proposed selection criteria. Organizations proposing subgrants must demonstrate that they are able to meet USAID regulations in monitoring grants and assume responsibility for managing the accounting of subgrants.

VII. Funding

Total anticipated funding available over the life of the program, for this RFA is approximately US\$500,000. USAID anticipates awarding up to three grants, which respond in a particularly creative fashion to the three Objectives, stated above. Applicants may submit for one component or all three. It is important to USAID that activities cover all three Objectives, therefore organizations wishing to submit for the entire amount are encouraged to cover all three goals in their proposal. Grantees submitting for one or two components should explain how their activities will complement activities in other components - regardless of the organization which may obtain funding for other components.

RESULTS

Applicants shall provide a monitoring and evaluation plan, describing the overall results to be achieved in each component. The plan should describe the overall results to be achieved annually and the system to measure these results. Applicants are advised to fill in a simple matrix to meet this requirement. For example:

Goal: More Youth are Gainfully Employed in the Casamance

Objective	Planned activity	Indicator	Definition	Measurement method	Target Year 1	Target year II
Job placement increases	Establishment of a job placement service	Number of youth placed in jobs	Jobs include part time for more than 2 months, and full time. Placement depends on documented referrals in records.	Job placement service records	100 youth placed	200 youth placed

Goal: A statement of the long-term aim of the activity. While the complete fulfillment of a goal may not be possible or verifiable within the life-span of the activity, the achievement of the project's more specific objectives should contribute to the realization of the goal.

Objective: A statement of what the activity plans to achieve during the life of the project. This achievement is the highest level result that a program can materially effect with its efforts.

Indicator: An indicator specifies what is measured to determine whether the objective has been achieved. This includes both process and outcome. Indicators should be sex-disaggregated where appropriate.

Targets: A target is the planned value of the indicator at the end of the project. Illustrative, end-of-program targets should be provided in the application. If the program is funded, targets can be adjusted according to baseline survey results.

Measurement Method: The measurement method identifies the source of the data for the indicators (for example, baseline survey)

(a) Instructions for Certification

1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the department or agency to whom this proposal is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

(c) Nonexpendable Property. If the recipient plans to purchase nonexpendable equipment which would require the approval of the Agreement Officer, please indicate below (using a continuation page, as necessary) the types, quantities of each, and estimated unit costs. General Instructions

This form is designed so that application can be made for funds from one or more grant programs. In preparing the budget, adhere to any existing Federal grantor agency guidelines which prescribe how and whether budgeted amounts should be separately shown for different functions or activities within the program. For some programs, grantor agencies may require a breakdown by function or activity. Sections A, B, C, and D should include budget estimates for the whole project except when applying for assistance which requires Federal authorization in annual or other funding period increments. In the latter case, Sections A, B, C, and D should provide the budget for the first budget period (usually a year) and Section E should present the need for Federal assistance in the subsequent budget periods. All applications should contain a breakdown by the object class categories shown in Lines a - k of Section B.

Section A, Budget Summary Lines 1-4 Columns (a) and (b)

For applications pertaining to a single Federal grant program (Federal activity breakdown, enter on Line 1 under Column (a) the catalog program title and the catalog number in Column (b).

For applications pertaining to a single program requiring budget amounts by multiple functions or activities, enter the name of each activity or function on each line in Column (a), and enter the catalog number in Column (b). For applications pertaining to multiple programs where none of the programs require a breakdown by function or activity, enter the catalog program title on each line in Column (a) and the respective catalog number on each line in Column (b).

For applications pertaining to multiple programs where one or more programs require a breakdown by function or activity, prepare a separate sheet for each program requiring the breakdown. Additional sheets should be used when one form does not provide adequate space for all breakdown of data required. However, when more than one sheet is used, the first page should always provide the summary totals by programs.

Lines 1-4 Columns (c) through (g)

For new applications, leave Columns (c) and (d) blank. For each line entry in Columns (a) and (b), enter in Columns (e), (f), and (g) the appropriate amounts of funds needed to support the project for the first funding period (usually a year).

For continuing grant program applications, submit these forms before the end of each funding period as required by the grantor agency. Enter in Columns (c) and (d) the estimated amounts of funds which will remain unobligated at the end of the grant funding period only if the Federal grantor agency instructions provide for this. Otherwise, leave these columns blank. Enter in Columns (e) and (f) the amounts of funds needed for the upcoming period. The amount(s) in Column (g) should be the sum of amounts in Columns (c) and (f).

For supplemental grants and changes to existing grants, do not use Columns (c) and (d). Enter in Column (e) the amount of the increase or decrease of Federal funds and enter in Column (f) the amount of the increase or decrease of non-Federal funds. In Column (g) enter the new total budgeted amount (Federal and non-Federal) which includes the total previous authorized budgeted amounts plus or minus, as appropriate, the amounts shown in Columns (c) and (f). The amount(s) in Column (g) should not equal the sum of amounts in Columns (c) and (f).
